MADE-TO-ORDER

GRAB-AND-GO

How can Fusion Food help liven up your menus?

Fusion Food combines two cultural cuisines to make a hybrid dish or adds a surprising up-and-coming flavor to a well-known meal. With the ingredients you already have on hand, "fuse" popular applications together to turn everyday meals into unexpected and exciting meals. For our fusion foods, we used Asian and Mexican dishes for fresh new takes on classic college favorites.
